SUMMARY

Power BI Developer with **7+ years of IT experience**, including **1.5+ years in Power BI**, **3+ years in TIBCO Spotfire**, and 2+ years in BI platform administration (SAP BusinessObjects/BOXI and Oracle Analytics Server). Skilled in Power BI, DAX, Power Query, SQL, dimensional data modelling (Star Schema), dashboard development, report optimization, and Spotfire-to-Power BI migration. Experienced in delivering scalable BI solutions by translating business requirements into interactive and data-driven reports. Currently expanding expertise in Python to build end-to-end business intelligence solutions.

Professional Experience

Senior Engineer | Power BI, & Python Developer

Quest Global – Aerospace Domain

Dec 2024 – Present

Recognition: “On the Fly” Award (Twice)

- Developed enterprise Power BI dashboards for Predictive Work scoping, delivering executive visibility into Forecast vs. Actual performance.
- Designed scalable star schema data models and implemented Power Query transformations from multiple enterprise data sources.
- Created advanced DAX measures for Forecast Variance, YTD, MTD, Rolling Average, Resource Utilization, and KPI reporting.
- Worked on data integration and preprocessing using Python and Pandas within the DATAIKU platform
- Managed Miro boards for high-level leadership discussions, enabling effective visual collaboration and strategic decision-making

Visualization Engineer | Spotfire Developer

Tata Consultancy Services – Healthcare Domain

Jan 2022 – Dec 2024

- Developed interactive Spotfire dashboards to monitor equipment service history, maintenance activities, asset reliability, service turnaround, preventive maintenance schedules, and equipment uptime across healthcare assets.
- Worked on creating various charts and filters, search box using filter, data limiting, markings. Worked on ON-Demand Dashboards, allowing users to access real-time data and insights tailored to their specific needs.
- Collaborated with business analysts to understand business requirements and translated them into effective Spotfire visualization.
- Implemented Agile Methodologies and performed UI/UX standardization for few dashboards based on requirement.
- Working on migration of reports from Spotfire to Power BI.

System Engineer | Platform Support Specialist

Tata Consultancy Services – IT Platforms

Jun 2019 – Jan 2022

- Provided technical support for IT platforms – Business Objects XI, Oracle Analytical Server, ensuring seamless operations and minimal downtime.
- Worked on migration of reports from Spotfire to Power BI
- Performed Disaster Recovery Activity on BOXI.
